

## CORPORATE TEAM BUILDING OPPORTUNITIES:

Creating a world in which everyone has a decent place to live.

### Building Teamwork!

Habitat for Humanity provides a unique opportunity for individuals to pool their respective energy and make an invaluable contribution to our mission and the community.

Your team can reserve an exclusive construction weekday to work together toward a common and immediate goal, gaining great personal and team satisfaction. In the process, they will become directly involved in the fight against one of the major causes of poverty - the lack of affordable houses for hard-working, low-income families.

Building communities is what Habitat for Humanity North Central Massachusetts is all about. Your associates will build team spirit and continuity as a direct result of their efforts on this project. The bond that forms between volunteers on a project such as this is incredible. Knowing that they have truly made a difference is what makes their Habitat experience one that is so special.

### Employee Gains

Putting them in a challenging, company sponsored, non-competitive team build will help them:

- learn multi-faceted problem-solving skills within constrictive timelines
- learn delegation of responsibilities, patience, creativity and accountability
- develop a positive, fun and highly rewarding experience
- provide an opportunity to generate a long-term, tangible gift to their community
- help foster team building and caring for one another in an environment of equality
- build and instill a great sense of pride and self satisfaction

Your team's cash investment in a Habitat build will create a decent new home for a hardworking family.

### Reserve Your Day

For more information or to reserve your work day, call **Clare Anderson-Felton, Volunteer Services**  
At 978-348-2749 x205

## The Dream of Home Ownership

Owning a Habitat for Humanity home means more than a roof over someone's head. Over time, Habitat homeowners strengthen the social and financial fabric of the local community through lower neighborhood crime rates, higher property values and a secure work force.

Owning a decent, affordable home has been proven to:

- Lift families out of the cycle of poverty
- Help ensure a child's educational success
- Improve a family's health and physical safety
- Grow a sense of dignity and pride
- Advance job prospects and performance.

Our mission is to build simple, decent and affordable houses and sell them interest-free at no profit to very low-income (30-80% of median income) families in need.

Our rigorous family selection process evaluates need, current housing conditions, financial status, character, and willingness to participate in the Habitat for Humanity program. Habitat families are deeply vested in their homes after contributing hundreds of hours of sweat equity in their home construction or in other Habitat projects. Home ownership skills are learned and Habitat homeowners are well prepared through financial education courses and a 2-3 year homeowner mentoring program.

Habitat for Humanity North Central Massachusetts is an equal opportunity lender. We are pledged to the letter and spirit of US policy for the achievement of equal housing opportunity throughout the nation, where there are no barriers to obtaining housing because of race, color, religion, sex, handicap, familial status or national origin.
