

# Group Build Day Reservation

'Build Days' are an integral part of making homes constructed by Habitat for Humanity NCM more affordable to the families who own them. All construction savings as a result of your volunteer labor help make our projects more affordable to families in north central Massachusetts. Financial donations made by your group buy the nails, lumber and other materials that make these houses possible. All donations are tax-deductible and voluntary. *Thank you for taking part in this effort with us!*
