Habitat families are not drawn from a hat. Habitat NCM follows a strict criteria when selecting families, assessing their need for housing, their ability to pay their zero-interest mortgage, and their willingness to work with Habitat.

When you volunteer with Habitat, you know you're making a real impact on the lives of modest, hard-working families looking for simple, decent housing. You may even find yourself working with the families! Prospective Habitat families work side-by-side with other volunteers in building their home. Habitat calls this a family's *Sweat Equity*.
